Remarks

Claims 1 and 89 are being cancelled herein. (Claims 2-88, which were incorrectly numbered 2-89, were cancelled in the Preliminary Amendment filed with the application.) New claims 90-97 are presented.

Applicant disagrees with the Examiner's rejection of claims 1 and 89, but that rejection is mooted by the introduction herewith of new claims, and so further comment is unnecessary. New claims 90-97 are directed to a syringe holder, such as a pressure jacket or any other structure, fittable to a face plate in the manner of the pressure jacket shown in Fig. 2 of the application, as described at pages 19-20 of the specification.

Applicant submits that the claims presented are patentable and requests early transmission of a Notice of Allowability.

A petition for a two-month extension of time is included with the transmittal herewith, making this response timely filed. If, however, any petition for extension of time is necessary to accompany this communication, please consider this

Respectfully submitted,
